

COURT OF JUSTICE. EUROPEAN INTEGRATION AND FUNDAMENTAL RIGHTS

Curso 2013/2014

(Código:26602514)

1.PRESENTACIÓN

ECTS: 5

1 semester

This course concerns the structure and functioning of European Union Courts which includes not only the study of the organs of this nature, but also their functioning in the European Multilevel system, which leads to interrelate their competences with those of European Union Member States courts, where appropriate.

The Court of Justice interprets EU law guaranteeing an uniform application in all EU Member States. Both, its composition and functions are complex but the establishment of a jurisdiction in the EU is one of its most important features. Through this course, students have to meet a knowledge of the jurisdictional structure in the European Union by studying the European Court of Justice: concept, structure and functions; the General Court: concept, structure and roles; and roles and relationships of both of them with internal organs of EU Member States.

12.EVALUACIÓN DE LOS APRENDIZAJES

The specific methodology of UNED allows students to be evaluated through presential exams performed in the network of Associate Centers of UNED in Spain and abroad, or to be evaluated at "distance" through the virtual platform that provides support to education.

Accordingly, the teaching team determines each academic year under the rules adopted by the UNED, the student's assessment of the subject, by one or more of the following systems:

- a) In person through tests performed in the associated centers of UNED.
- b) Conduct of a research.
- c) On-line test.
- d) Writing of essays.
- e) Case Studies.
- f) Analysis of case law.

The day and time of assessment exercises will be announced with, at least, two weeks in advance on the platform.

If the student does not realize the exercise in time to enable it or does not get the minimum of 5 points, he/she may be presented to the September resit but he/she will not be able to recover during the semester.
