PRESENTACIÓN Y CONTEXTUALIZACIÓN

Welcome to the course on Social Justice and Education!

It is an elective course, located in the fourth year of the degree in Social Education and it is also offered in Pedagogy. It belongs to the general subject (*materia*): *Procesos, técnicas y recursos de intervención socioeducativa* (*Processes, techniques and resources for socio-educational intervention*).

Education should be aimed at promoting social justice implicitly, but unfortunately this is not always so, thus, it is essential to address it explicitly.

In this course we hope to equip students with the necessary competencies to question many accepted practices in education and to adopt a social justice perspective in their work.

Social Justice is based on the idea of creating a society that is based on the principles of equity and solidarity, that recognizes the dignity of every human being (by promoting social justice at personal, institutional and societal level).

The concept has taken on a very controverted and variable meaning, depending on who is using it and for what purpose, so it is very important to be aware of these meanings. In this course we will analyse these different uses.

This subject is related to Derechos Humanos y Educación, a compulsory subject in the first year, and Schools for All, another elective course in the fourth year (of the degree in Pedagogy),

Social educators and pedagogues need to adopt a social justice approach in their work, in order to fulfill adequately and fairly the objectives and goals of our profession.

REQUISITOS Y/O RECOMENDACIONES PARA CURSAR LA ASIGNATURA

This course is completely delivered and evaluated in English, thus, it is strongly recommended that students who enrol hold a B2 certificate or equivalent. Accreditation will not be required, nevertheless **they should be proficient in this language (especially reading and writing skills)**, in order to read the materials, engage in the discussions and

complete the written activities.

If not fluent before enrolling, students must at least be highly motivated, and be prepared to learn and improve their English, while undertaking the course. The **Centro Universitario de Idiomas Digital y a Distancia** (CUID) provides initial tests (free of charge) in order to assess competence in English (as well as other languages):

METODOLOGÍA

The methodology is that of UNED, combining different resources in distance and blended learning:

- Virtual Course (V.C.): different tools to assist the students in their learning process.
- Discussion rooms within the v.c. to interact with other students and the professors.
- Study guidelines to follow the course: contents, activities and evaluation.
- Basic materials available in the virtual course and complementary texts.
- Links to resources related to the subject.
- Attention to students through e-mail, as well by telephone, on the days specified.

Students are expected to participate and engage actively in discussions in the virtual course.

Some activities can be carried out outside the virtual course, such as collecting data in a certain context, or interviewing people.

One of the compulsory activities requires working collaboratively, as part of the learning process. Work groups will be created in the platform, and students must participate in the work team in order to pass the course, besides the individual exam.
