## PRESENTACIÓN Y CONTEXTUALIZACIÓN

Welcome to the elective course on Social Justice and Education!

Education should be aimed at promoting social justice implicitly, but unfortunately this is not always so, thus, it is essential to address it explicitly.

In this course we hope to equip students with the necessary competencies to question many accepted practices in education and to adopt a social justice perspective in their work.

Social Justice is based on the idea of creating a society that is based on the principles of equity and solidarity, that recognizes the dignity of every human being (by promoting social justice at personal, institutional and societal level).

The concept has taken on a very controverted and variable meaning, depending on who is using it and for what purpose, so it is very important to be aware of these meanings. In this course we will analyse these different uses.

This elective course is located in the fourth year of the degree in Social Education and it is also offered in Pedagogy.

## REQUISITOS Y/O RECOMENDACIONES PARA CURSAR LA ASIGNATURA

**This course is completely delivered and evaluated in English, thus, it is strongly recommended that students who enrol hold a B2 certificate or equivalent.** Accreditation will not be required, nevertheless **they should be proficient in this language (especially reading and writing skills)**, in order to read the materials, engage in the discussions and complete the written activities.

If not fluent before enrolling, students must at least be highly motivated, and be prepared to learn and improve their English, while undertaking the course. There are no previous requirements regarding contents, only being interested in promoting equity in education, whether formal or informal, and in society at large, within our possibilities.
