

## EDELNet+ PhD Training Programme in Methods and Skills of Legal Research

### CfA – 2023 PhD Blended Intensive Study Programme in Bologna (IT)

The seven partner universities of the EDELNet+ PhD Training Programme are inviting applications to its 2023 Blended Intensive Study Programme (BISP). The **online learning phase** of the programme will run **from 8 February to 7 May** and the face-to-face part will take place in **Bologna, Italy, from 8 to 12 May 2023**.

The number of participants is limited to 8 PhD students per institution. Successful applicants are expected to be registered as PhD students at one of the Partner Universities (see IVAC-Training at <http://graduateschool.edelnet.eu>) and have a good command of English.

**Participants are expected to make their own travel and accommodation arrangements and expenses.**

**However, Accommodation and Travel scholarships will be offered by the Programme within available resources to applicants fulfilling the criteria of financial necessity and academic excellence.** Financial support will be decided by a Selection Board integrated by 3 Uned Lectures, which will deeply analyze financial applications and will decide about the PhD students which will be finally pointed out for financial grant according to the mentioned criteria.

The BISP consists of a blend of preparatory e-courses and a 5-day-long face-to-face (f2f) program that aim to equip participants with key research competences and skills. In the online preparatory phase, participants are invited to take three online micro-courses on Research Project Management, Academic Integrity & Ethics and Intercultural Awareness. The core of the f2f programme consists of a series of individual Project Sessions where PhD students will have the opportunity to present their research projects to an audience of junior and senior researchers that will provide each participant with meaningful feedback meant to help PhD candidates improve their research and encourage them to continue their efforts towards completing their dissertation. Project sessions are based on written research outlines that each student is expected to submit in advance.

The f2f program also includes a variety of short workshops on advanced legal English, public speaking and presentation, intercultural communication and research project management skills as well as a research workshop on European Law and Cultural Diversity.

Applications will be accepted on a rolling basis **until 31 January 2023**. Selection will take place between 1 and 6 of February 2023.
