PRESENTACIÓN Y CONTEXTUALIZACIÓN

This course attempts to form students in the use of methods to evaluate socio-economic programs and policies. It is particularly interesting to have at least a partial view of the available methods and to study some cases of particular interest in the context of the European Union. In our opinion, it is also useful in a Master as the European Union one to do so in a very applied and multidisciplinary way. The main objective of the course is to provide the students some useful tools which allow them to be able to evaluate the impact of policies and programs implemented in the European Union.

REQUISITOS Y/O RECOMENDACIONES PARA CURSAR ESTA ASIGNATURA

Although it is not compulsory, it is highly recommended some previous knowledge of basic statistics and econometrics.

HORARIO DE ATENCIÓN AL ESTUDIANTE

The only methodology allows students to be evaluated both at the Centers of the UNED both in Spain and abroad. It is also possible to conduct evaluations on-line as most of the tasks we ask during the course are. Then, material to pass the course will be provided either through the web or by e-mail.

COMPETENCIAS QUE ADQUIERE EL ESTUDIANTE

RESULTADOS DE APRENDIZAJE

At the end of the course, we hope:

- The students will know the main methods to conduct impact evaluation of socio-economic programs and policies
- The students will be able to do a "real" evaluation of a program or policy

CONTENIDOS

METODOLOGÍA

This course will be done using on-line learning methods. The student should work on each part of the contents in two ways. First, he/she should study the theoretical part, i.e., each of the methods and cases provided in the references. Second, he/she should work through exercises provided at the web using some statistical - econometric program. Each exercise will contain a database where the student can experiment using the methods learned at the theoretical part. Everything, exercises and data (as well as the proposed answers) will be available at the platform. UNED will provide access to the statistical - econometric programs available for students at the web.
